Students who prepare for CBSE examinations 12th Physics Board 2021 are advised to download these features and analyze them for a better preparation. Preparation. Read: Deleted CBSE Class 12 syllabus 2020-21 (from fans & other subjects): Appable for Session CBSE Academic 2020-21! CBSE Class 12 Physic Paper Sample 2021: Class: XII Session: 2020-2021 Subject: Fansica Paper Sample Question (Theory) Maxima Marks: 70 Marks, Allowed time: 3 hours General Instructions: (1) A All questions are obligatory. There are 33 questions in total. (2), this role issues has five sections: Section A, section B, section C, Section D and E. Secroção (3) a section contains ten very short questions of response and four MCQs statement of raciocenium of a brand of each, section B has two questions a case based on 4 values each, section c Contains nine Questions Short response of 2 brands Each, section D Contains five Questions Short answer of 3 points and each section and contain three questions 5 brand response all. (4) à, there is no general choice. However, internal choice is provided. You have to try only one of the options on such issues. SECTION TO AN ALL QUESTIONS are obligatory. In the case of internal options, try any of them. 1. The name of the physical quantity having a j / T. 2.A unit to mention a use of a part of the electromagnetic spectrum that for a wavelength of 21 cm (emitted by hydrogen in the space interstellar) belongs. Or give the reasons between the speeds of the two waves of light of 4000A and 8000A wavelengths that travel in vacuo. 3.A an electronic and mass M mass travels at a velocity V in a plane perpendicular to a magnetic field of magnitude B. The electronies follows a circular route with a radius R. at a time, t. The electron moves halfway around the circle. What is the amount of work done by the magnetic field? 4. A solenoid with n tits of wire heavily wrapped around an iron nuclecle is Current carrier I. If the electrical current through the solenoid is reduced to half, then The change would have to be expected in inductive L of the solenoid. Or an alternating current of a font is given by i = 10sin314t. À, what is the effective value of current and frequency of the source? 5. What is the value of the angular momentum of the electron in the second oil of the hydrogen model BOHRA S? 6.A in a photoelght experience, the potential necessary to stop the ejection of cathode electrons is 4V. What is the value of the maximum cinema of photoelectros emitted? 7. In decay of free neutrings, cite the elemental particle issued along with protains and electricals in the nuclear reaction. Or in the next nuclear reaction, identify unknown marked X. 22Na 11A, + XA A VE. For all questions and answers, download CBSE Class 12 Physics paper sample 2021 and CBSE class 12 physics 2021 marking regimen from the links below a download CBSE class 12 Physics paper sample 2021 (PDF) Download CBSE Class 12 Physics Scheme Tag 2021 (PDF) (PDF)
